### Maths

This week we are learning about how to find **a half and a quarter**. Finding a half means that we split something into 2 equal parts or groups. Finding a quarter means that we split something in to 4 equal parts or groups. Please find attached document.

### Recipes

Mrs Riaz and Mrs Dascalu have been busy writing down some fun recipes for you to try. Have a go and tell us how it went and what you enjoyed the most!

### English

This week you are going to practise using the suffix **-ing**. Write down all the things that you are doing each day, remembering to practise using **-ing**. For example, you could be **playing** or **baking** or **helping** or **making**.

Can you also try to start using the prefix **-un**? When we put **-un** in front of words, it changes the meaning.

For example: let's use **happy**. If you are not happy, you would say "I am **unhappy**".

Try to use these in a diary for this week.

### RE

Can you find out what the **celebration of Eid** is? Have a go at making an Eid card or some Eid arts and crafts. Do you or your friends celebrate Eid?

### Spelling

Can you write a sentence each for the words below?  
The special sounds are "ou" and "ow".

**shout, count, cloud, found, sound, loud, mouth, brown, cow, clown, down, town, owl, now, frown**

Remember your capital letters and full stops!

### Jigsaw PSHE

Our topic in PSHE is **Relationships**. This week is about **recognising your qualities as a person and friend and celebrating what makes you special**. This will give you a chance to know your own strengths and know what you bring to a relationship. What do you think you are good at? What do you enjoy doing? What makes you so special? Do you know some of the things people appreciate about you? Feel free to create a poster which shows lots of the qualities you have and the things you love to do and are good at. For example, you can draw football and write "I am very sporty and I love to play football", or "I am special because I am funny and I like to make people laugh" or "I am special because I am creative." Can you think of 10?

## Finding a half

The question here says to circle half of the shoes.

The first step is to count how many shoes there are.

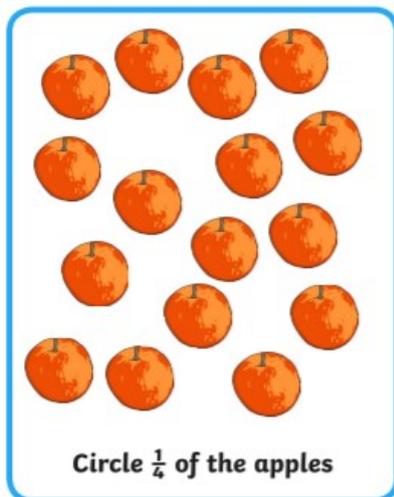

Then you need to share the shoes in 2 equal groups. So, if there are 6 shoes here and you start sharing the shoes equally, you should have 3 shoes in each group.

That means half of 6 is 3.

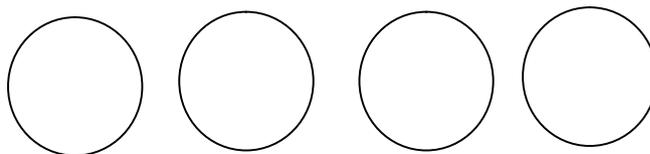

(Another way of writing half is  $\frac{1}{2}$  )

## Finding a quarter

The question here says to circle a quarter of the apples.

The first step is to count how many apples there are.

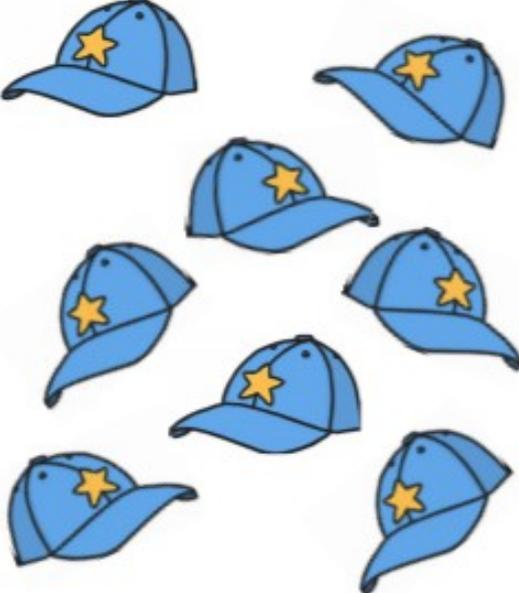

Then you need to share the apples in 4 equal groups. So if there are 16 apples here and you start sharing the apples equally, you should have 4 apples in each group.

That means a quarter of 16 is 4.

(Another way of writing quarter is  $\frac{1}{4}$  )
