

EDUCATE AND STIMULATE YOUR CHILD THROUGH PLAY

Laurance Haines School Robotics Club KS2

Monday 29th April 2019 to Monday 8th July 2019

Cost: £40 (8 sessions @ £5.00 per session)

3:20 pm to 4:20pm

Children love playing games, whether they be computer games, console games or electronic games. Would you like your child to learn about how these games operate through a LEGO Robotics after school club program?

Designed for children in years 3 to 6, our club will teach them how to build various robots and explain how we use robots in the real world. There will also be an element of basic programming. The last week of term will result in the children taking part in an exciting game of Robot Wars.....May the best builder win!!!!

Using LEGO® Mindstorms® children can build simple robots and then each week they can build more and more powerful robots. Newly designed course so that all models can be built within 30 – 45 minutes and then 15 minutes to learn and play with their working models.

If you would like your child to attend our club please send an email to laura@hg-education.com with the subject line Laurance Haines Robotics Club and we will send an email to successful parents asking them to pay. Then please complete this form and return to the school office.

CHILD’S NAME: _____ Date of Birth: _____

Allergies/Medical conditions _____

My child can be photographed/filmed for marketing purposes YES / NO

At the end of the club my child is :

allowed to walk home alone

or will be picked up by _____ (who is over 16 years of age)
