**Coding Club with Python After-School Club via Zoom platform
For Laurance Haines Primary students - Spring Term 2021
Every Friday from 15th January – 26th March 2021 (10 weeks)
4:30pm – 5:30pm (£60.00 per child for the 10 weeks duration)**

In partnership with the Education.Technology.Community (ETC) Group, formerly *Community Coding Club*, we are proud to be able to offer the children in Year 3-6 the opportunity to join a **Coding Club with Python After-School Club** where they will learn how to write the computer code that makes countless programs and devices work, using one of the fastest growing computer languages, Python! Children will learn the fundamentals of programming and understand how different elements of programming work together to create small text-based interactive programs.

The club ends with an interactive quiz to revise and gauge what the children have learnt.

To register your child for this club, you can make direct booking and pay via ETC website link as follow: <https://etcgroup.uk/bookings/>

Should you have any questions or need any further assistance with your bookings please do not hesitate to contact us by email or telephone.

There is a maximum booking of 12 children for this online session therefore this is a first come first serve booking basis. If you are unable to book, then please email us with your details and we may possibly look into running a second club if we get enough numbers.

PLEASE NOTE: -

You will require the use of your own desktop PC or laptop at home for this Zoom online session. Unfortunately, we cannot run this online club with iPads or tablets.
