Resource Packs for Home Learning

As always, we want to support children who are learning remotely in the best way possible and we have organised for each pupil to have a handy resource pack to have at home. Some of the items included are from feedback we have received from parents and other items are those which the teachers feel will support with the learning at home. The pack includes a whiteboard and pen, a pencil and rubber, some coloured pencils and an exercise book to record learning:

Despite the news that schools will be returning on 8th March, these packs will also be used to support remote learners in the event of any future bubble closures.

We are asking that parents come to collect their packs over the course of this week and next. After which, the class teachers will have the packs in their classrooms for the children to take home should they need to in the future. Please come to the front entrance where a member of the office team will be able to give you your child's pack. Please remember to wear a face covering and to keep a safe distance from other parents.

Kind regards,

Jo Ball
Assistant Headteacher
