

HOME SCHOOL RESOURCES

26TH FEBRUARY 2021

WELCOME TO THE 4TH EDITION

Welcome to our 4th Edition of Home School Resources.

We hope this will be our last one for quite some time due to our school being able to re-open on Monday 8th March!

Don't forget to check out our new page to our [website](#) with downloadable documents should you wish to use them.

Please share any experience you have using the additional resources we have shared!

We are here to support you in any way we can as your children are remote learning from home. Please email or call the school should you need any support.

Thank you

Mr Gray
Headteacher

BIG HISTORY PROJECT

Big History examines our past, explains our present, and imagines our future. It's a story about us.

An idea that arose from a desire to go beyond specialized and self-contained fields of study to grasp history as a whole.

This growing, multi-disciplinary approach is focused on high school students, yet designed for anyone seeking answers to the big questions about the history of our Universe.

Your child can explore the stages [here](#).

GET CRAFTY

there are some amazing celebrations coming up over the next few months and its a great time to get out the arts and crafts with your child(ren).

Mothers Day is Sunday 14th March and Easter is Sunday 4th April.

Have a look at these links to get some ideas!

MISSION TO MARS

With Perseverance now on Mars, take an up-close interactive look at this and other rovers that paved the way.

You can even drive one down your street. From the treacherous landing attempt to the flight of the first interplanetary helicopter, this app brings the mission to life through augmented reality experiences grounded in real equipment and events.

Engaging, informative and fun, this is the best way to explore Mars without going there yourself!

[Download for free.](#)

LEARN TO CODE

With Scratch, you can program your own interactive stories, games, and animations — and share your creations with others in the online community.

Scratch helps young people learn to think creatively, reason systematically, and work collaboratively — essential skills for life in the 21st century.

Scratch is a project of the Lifelong Kindergarten Group at the MIT Media Lab. It is provided free of charge.

They have some [amazing_projects](#) available for children of all ages with all ranges of interests!

MUSIC WITH MYLEEN CLASS

Home schooling driving you mad?! Let me take one lesson off your hands!

Curriculum based and most importantly, fun. There's no need for instruments or to feel intimidated. Any age, any ability welcome.

Music helps to look after our children's minds and souls, especially at a time when they need it most plus, we may even find the next Elton or mini Mozart!

With an exciting range of classes available, check our Myleen's [YouTube](#).

FREE BOOKS ONLINE

Book Trust has an amazing range of free online books for children of all ages!

This is a great way to access a wide range of fun and exciting books, your child can pick themselves, plus it saves on space in the home!

Check it out [here](#).
