Shh... Magical Maths Have Invited YOU To Their Awesomely Magical Afterschool Club...

Dear Student,

I will be returning to your school in a few weeks time to run the most magical afterschool club of the year! It's going to be TOO good to miss!

Not only will I show you the magical card trick that you've just seen in assembly, but I'll also be bringing some of my friends along too.

These include:

Professor Poopenshtinken,
the Maths Genius

Statelý Holmes the Maths
Detective

The olympic Mathletes

There will be magic, mind-reading and MASSIVE amounts of fun.

I simply can't wait to see you there!

The Mathemagician.

P.S Places at the club go EXTREMELY quickly, so please book as fast as possible to avoid missing out!

Parents!!

As always; our clubs are fast paced, exciting and fun. But they're also highly educational (don't tell the children!)

They are specially designed to boost your child's confidence and to better engage them with Maths.

Brand new games
and content
